

BREAK BULK

FOR FASHION, TEXTILE, SPORTS
AND LIFESTYLE SECTOR

International B2B and B2C shipments to the EU can be complex and expensive. Greenway Logistics simplifies the process with the Break Bulk Solution; an efficient cross-docking service operated from a European warehouse in The Netherlands. This solution is designed specifically for companies outside Europe that wish to distribute products quickly and cost-effectively across multiple EU destinations.

COMPLETE SUPPORT IN:

- Transport from outside the EU to the Netherlands
- Customs clearance
- VAT administration and deferment
- EORI registration
- Distribution to all EU countries
- Global shipping options

HOW DOES IT WORK?

1

ORDER PROCESSING

You process B2b and B2C orders & generate shipping labels via the warehouse portal.

Labels can be applied to the packages.

4

DISTRIBUTION

Your individual packages are scanned and handed over to the right carriers. Thanks to the pre-applied labels, Track & Trace becomes active immediately.

2

SHIPMENT TO THE EU

Consolidate all packages into a single large shipment (box or pallet) & send to the Netherlands.

5

SIMPLIFIED ADMINISTRATION

You receive one commercial invoice, one invoice for import duties and one overview of VAT settlement per EU country.

3

CUSTOMS CLEARANCE

The inbound carrier handles all customs formalities for the consolidated shipment. Upon arrival, the mother shipment will be deconsolidated.

6

GLOBAL REACH

With the international shipping network, you can easily access every market worldwide.

With the Break Bulk Solution you save costs, time and administrative effort, ensuring your products reach their destinations faster and more efficiently, both inside and outside the EU. For more information, visit www.greenway-logistics.com or call +31 33 208 7200.
